1. INTRODUCTION

Liga Kampus is a centralized, web-based platform designed to streamline the management and participation of university sports competitions and activities at UiTM. By leveraging Java Web Technology and the MVC architecture, this system ensures scalability, reliability, and ease of use for all users.

The system enables students to easily register for sports competitions, view match schedules, track team standings, and monitor their participation across multiple matches. Staff and administrators are provided with comprehensive tools to organize and manage competitions, update match results, and oversee student participation.

With a focus on user experience, Liga Kampus aims to bring all aspects of university sports engagement into one centralized platform, improving communication, organization, and athletic involvement across campus.

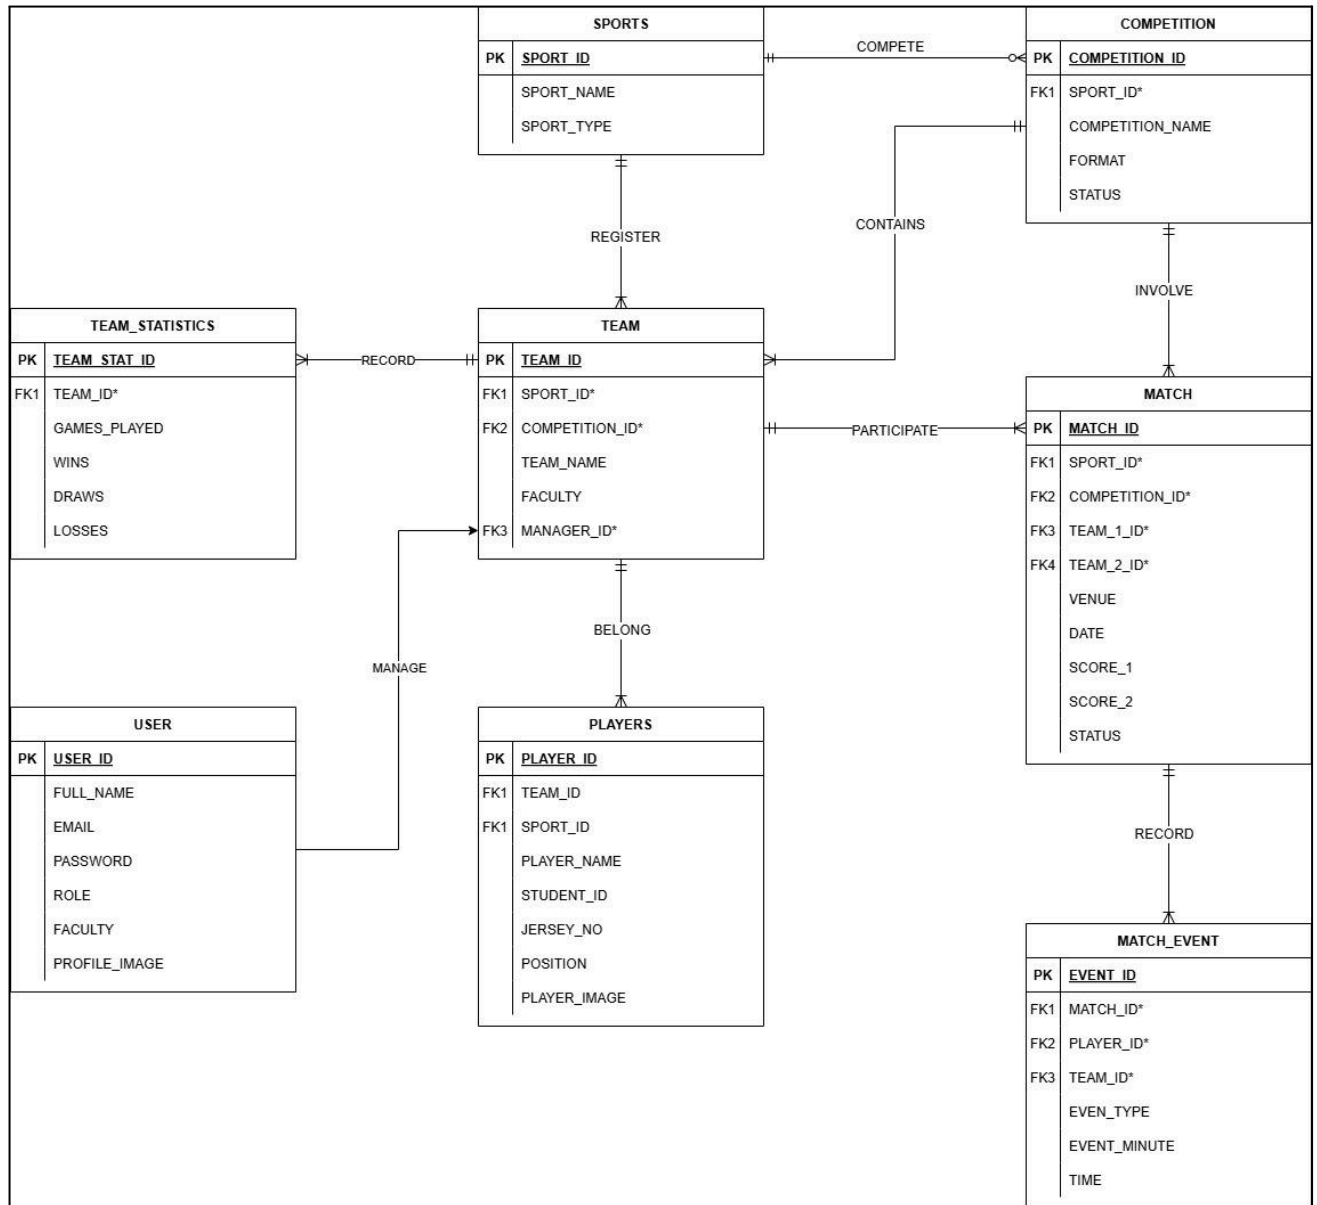

2. PROBLEM STATEMENT

- Sports information, competition schedules, and team standings are often managed manually or across different platforms, creating confusion among students and staff.
- Students find it difficult to track which competitions are available, view match schedules, and monitor their team's performance.
- Lack of a centralized sports management system causes difficulties for both students and staff to organize, update, and monitor sports activities and student participation.
- There is no efficient way to track student participation points and attendance in sports activities.
- Competition formats (league, knockout, group stage) are not properly managed or communicated to participants.

3. OBJECTIVE

- To develop a centralized web-based system for managing university sports competitions and activities.
- To allow students to view and register for competitions from all sports in a simple and organized manner.
- To record and track student participation in sports activities accurately, ensuring up-to-date records.
- To enable staff to create, manage, and update competitions, matches, and team registrations easily.
- To provide real-time league standings, match results, and competition status.
- To implement a notification system for upcoming matches and competition updates.

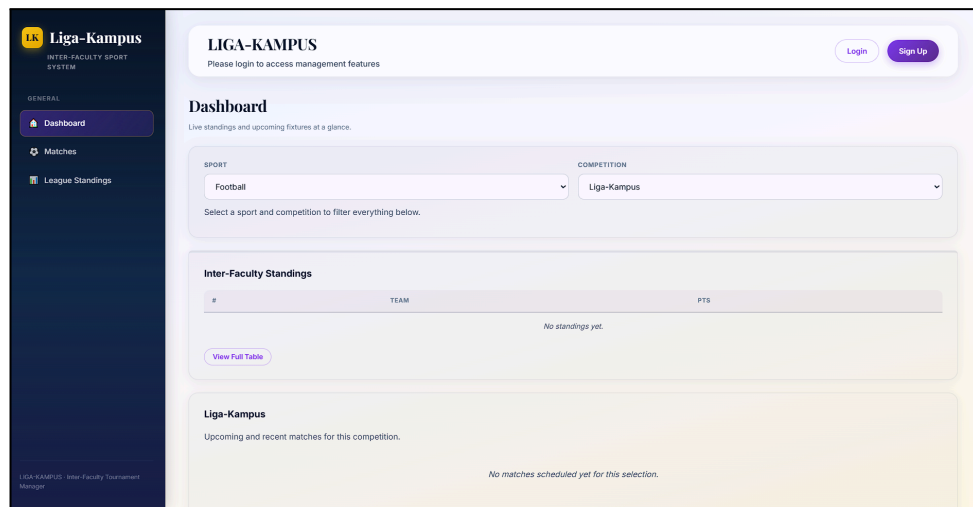

4. ERD

5. USER MANUAL

5.1 GUEST USER

Guest Dashboard

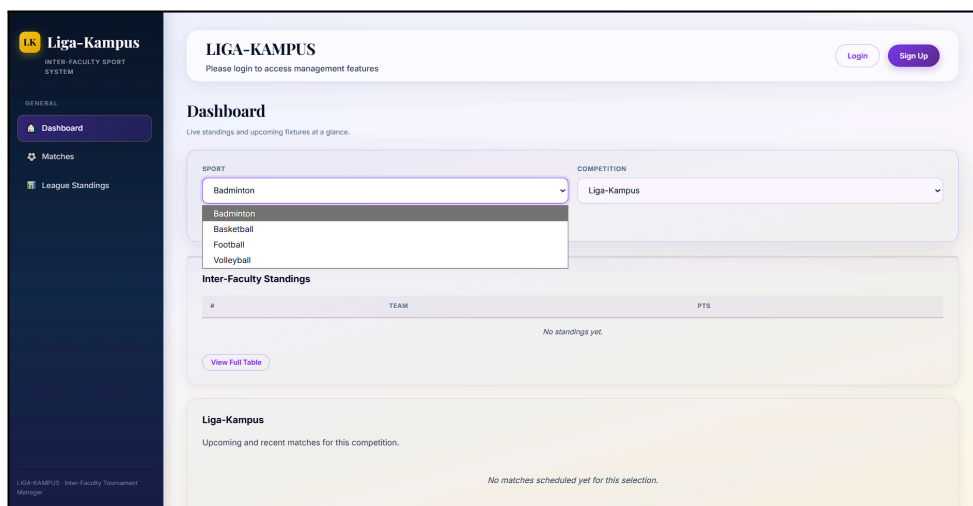

[Figure 5.1: Guest landing view]

Features: Allows unregistered guests or public users to view ongoing sports updates.

Functionality: Features a sidebar navigation panel with direct links to the Dashboard, Matches, and League Standings.

Choosing a sport and Competition

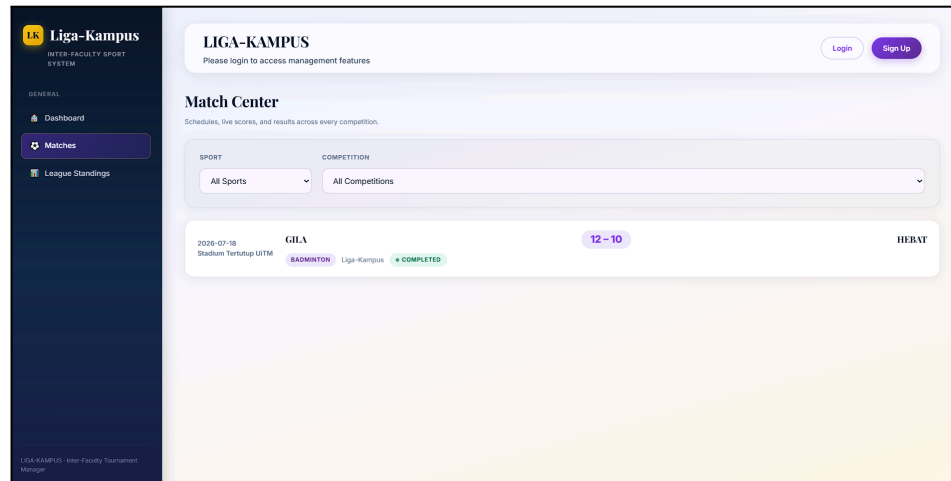

[Figure 5.2: Sport/competition filter]

Features: A dynamic filtering drop-down option under the "SPORT" field category that contains the list of sports available, the current competition name that is currently underway and the current standings for each available competition.

Functionality: Users can filter dashboard rankings and upcoming schedule logs by selecting specific sports categories, including Badminton, Basketball, Football, or Volleyball. Users can also add on competition for the sports wanted.

Matches Page

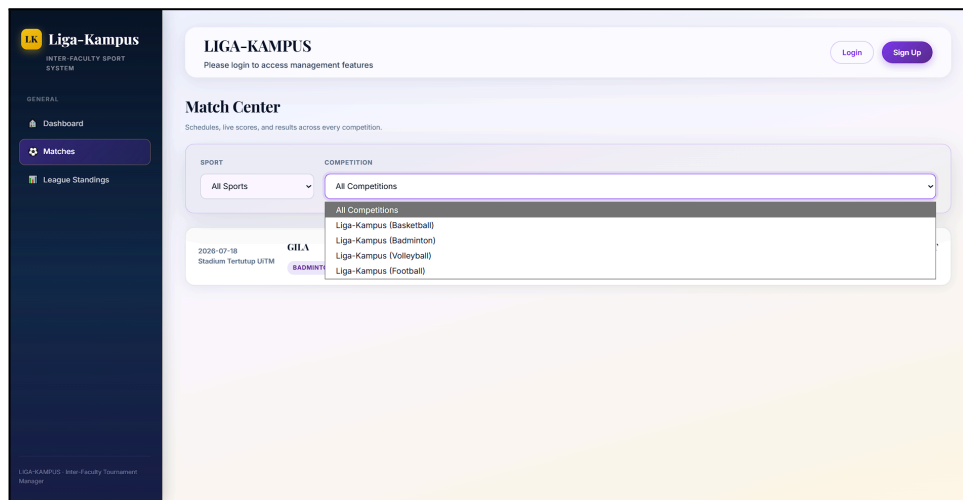

[Figure 5.3: Matches page timeline]

Features: The primary timeline displaying ongoing, upcoming, and finished matches.

Functionality: Displays complete cards summarizing essential match data such as the match date, venue location, team names, scoring ratios, and status tags (e.g., COMPLETED).

Choosing a Competition

[Figure 5.4: Match Center competition filter]

Features: A secondary filter dropdown specific to a single active tournament.

Functionality: Enables users to drill down and locate specific match records filtered by sport-specific tournaments, such as Liga-Kampus (Basketball) or Liga-Kampus (Football).

League Standings

#	TEAM	P	W	D	L	PTS
1	GILA	1	1	0	0	1
2	TEAM1	0	0	0	0	0
3	HEBAT	1	0	0	1	0

P Played W Won D Drawn L Lost PTS Points

[Figure 5.5: League standings table]

Features: A comprehensive leaderboard matrix displaying current team analytics.

Functionality: Evaluates teams using essential parameters: Matches Played (P), Wins (W), Draws (D), Losses (L), and Total Points (Pts).

[Figure 5.6: Create Account page]

Features: Self-service registration gateway interface panel for new standard system users.

Functionality: Includes registration fields for entry of Full Name, Email Address, security Password, and academic Faculty association.

User Dashboard (Logged In)

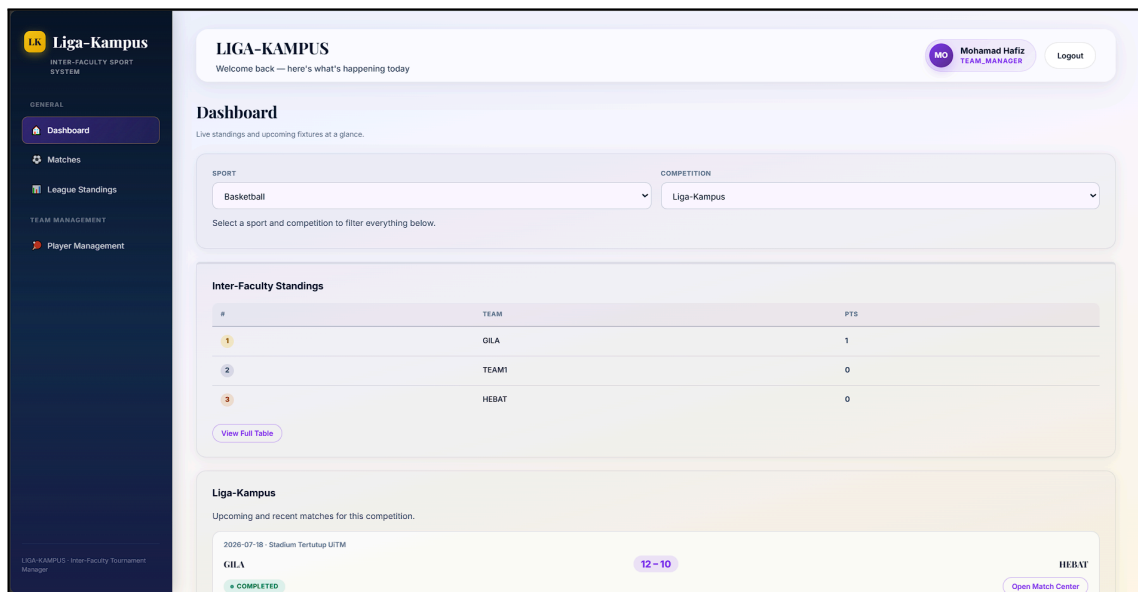

[Figure 5.7: Logged-in dashboard]

Features: Personalized landing page view after logging into the system.

Functionality: Displays a greeting header banner showing user information ("Welcome back — here's what's happening today") while maintaining default schedule layout views.

5.2 TEAM MANAGER

Manager Page

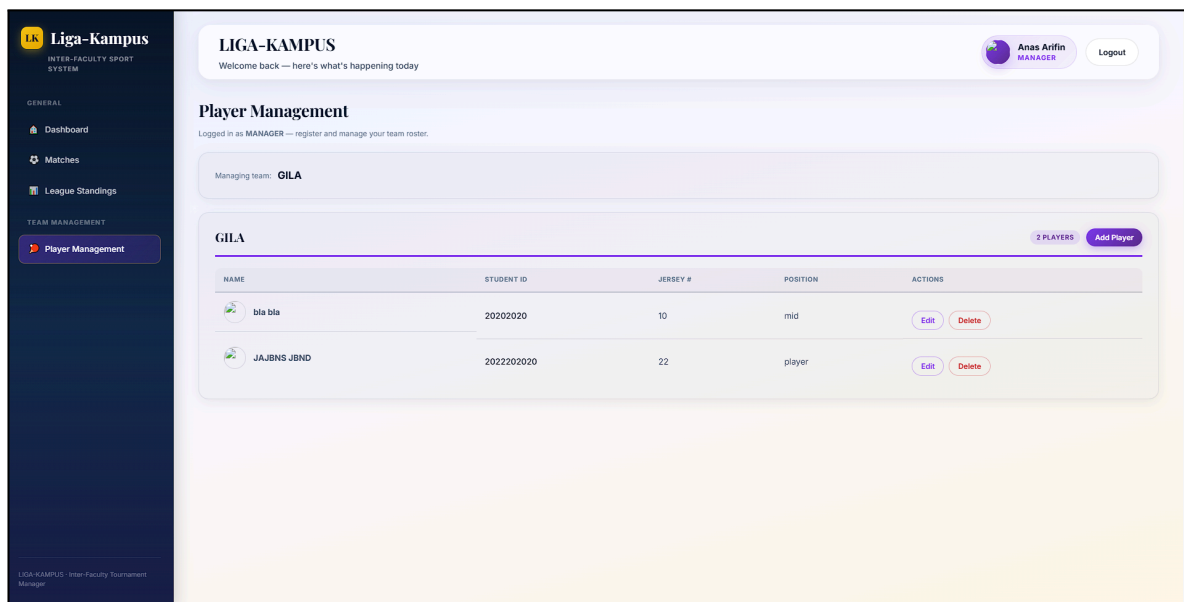

[Figure 5.8: Manager dashboard]

Features: Elevated layout authorization view customized specifically for validated team managers.

Functionality: Expands the standard sidebar menu options grid to display a specialized management item: Player Management.

Player Management (Manager)

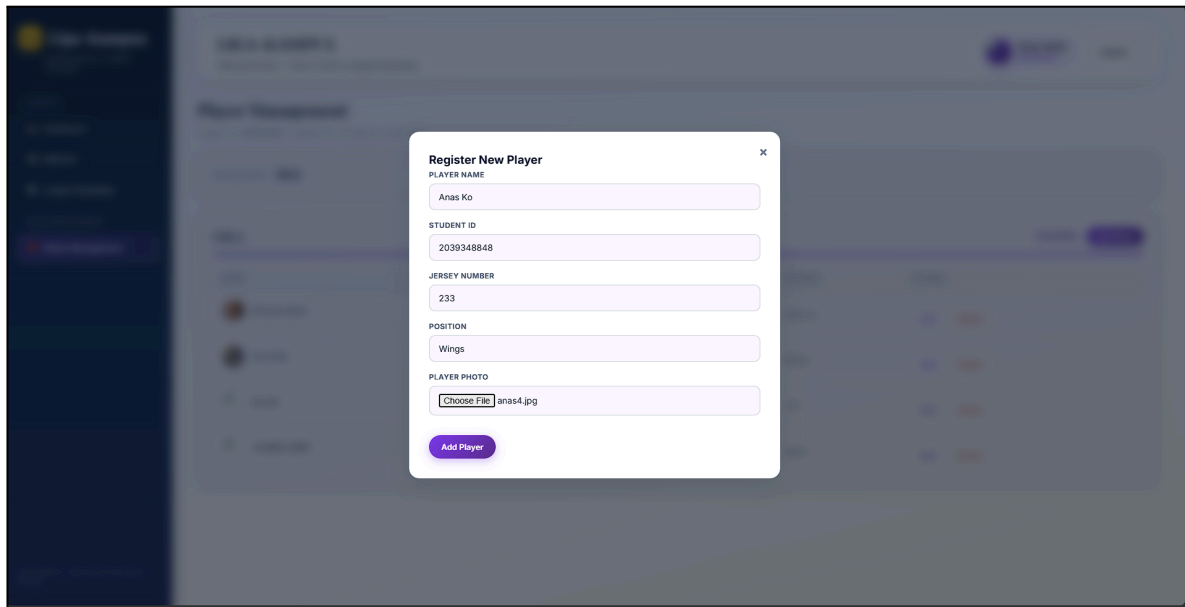

[Figure 5.9: Player Management roster view]

Features: Team roster roster tracking screen displaying active student-athlete registry sets.

Functionality: Provides clean summary grids displaying player avatars, full names, student ID references, jersey numbers, and field positions. Access requires the manager to first be assigned to a team by an admin.

#8	Liga-Kampus	BASKETBALL	Round Robin	UPCOMING	Edit Remove

[Figure 5.17: Competition list table]

Features: Central configuration table listing every tracked sport tournament.

Functionality: Displays each competition's ID, name, sport, format, and current phase status.

Add New Competition

Add New Competition

SPORT: Volleyball

COMPETITION NAME: Liga kampus

FORMAT: Round Robin

STATUS: Upcoming

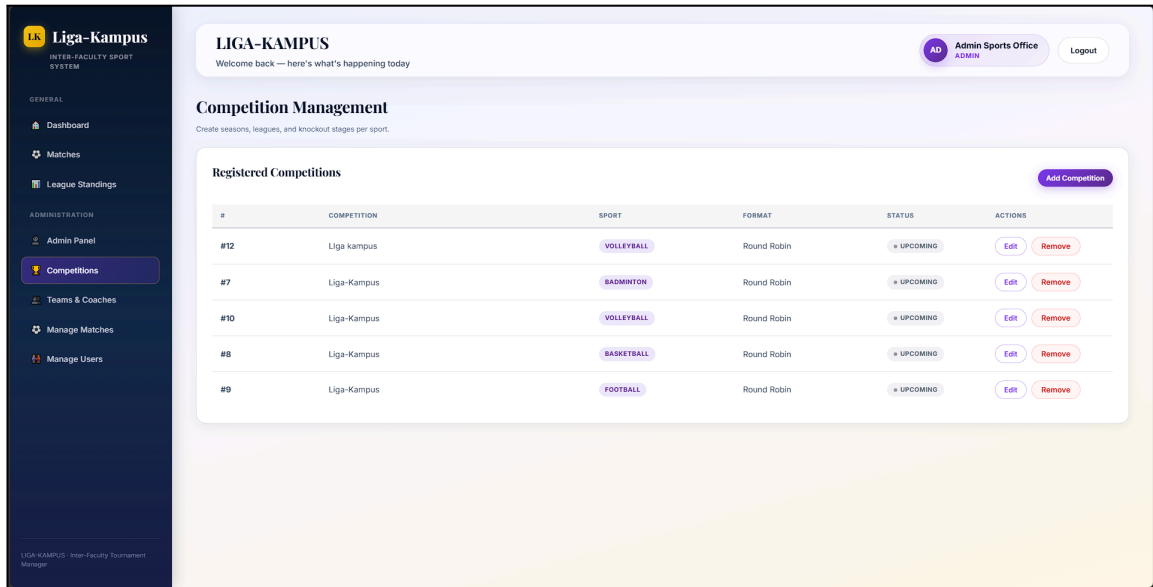

[Save Competition](#)

[Figure 5.18: Add Competition form]

Features: Administrative form for defining a new tournament's boundaries.

Functionality: Captures the core Sport Category, Competition Name, Format ruleset, and default Status value.

Competition Added

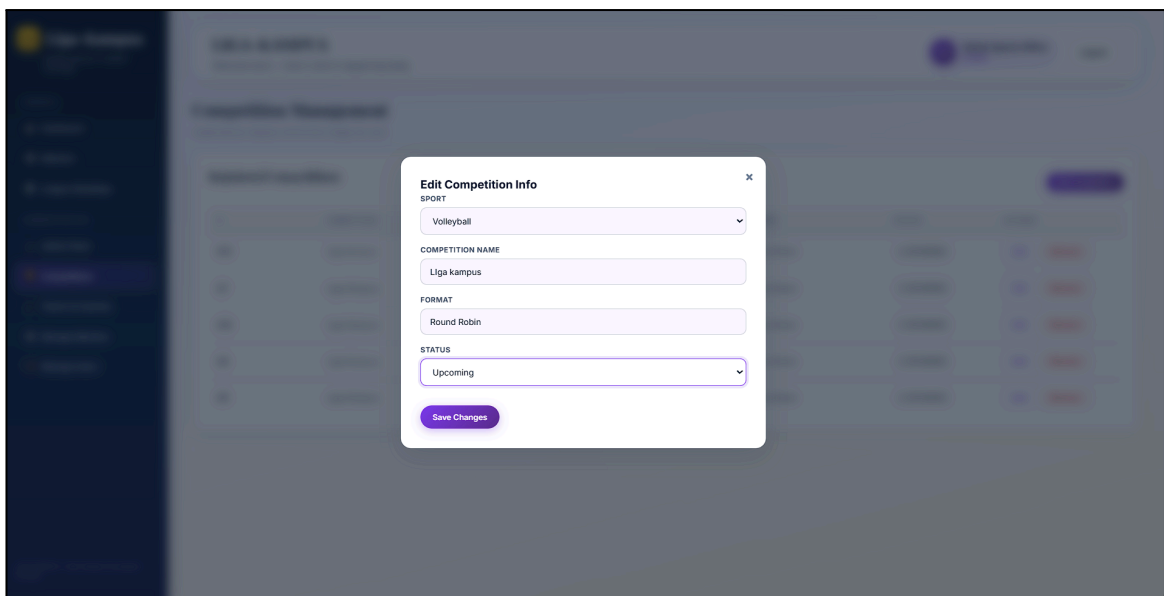

[Figure 5.19: Competition added confirmation]

Features: Live view confirming the tournament was created successfully.

Functionality: Renders the new competition into the master table, ready to be linked to teams and matches.

Edit Competition (Status: Upcoming / Ongoing / Completed)

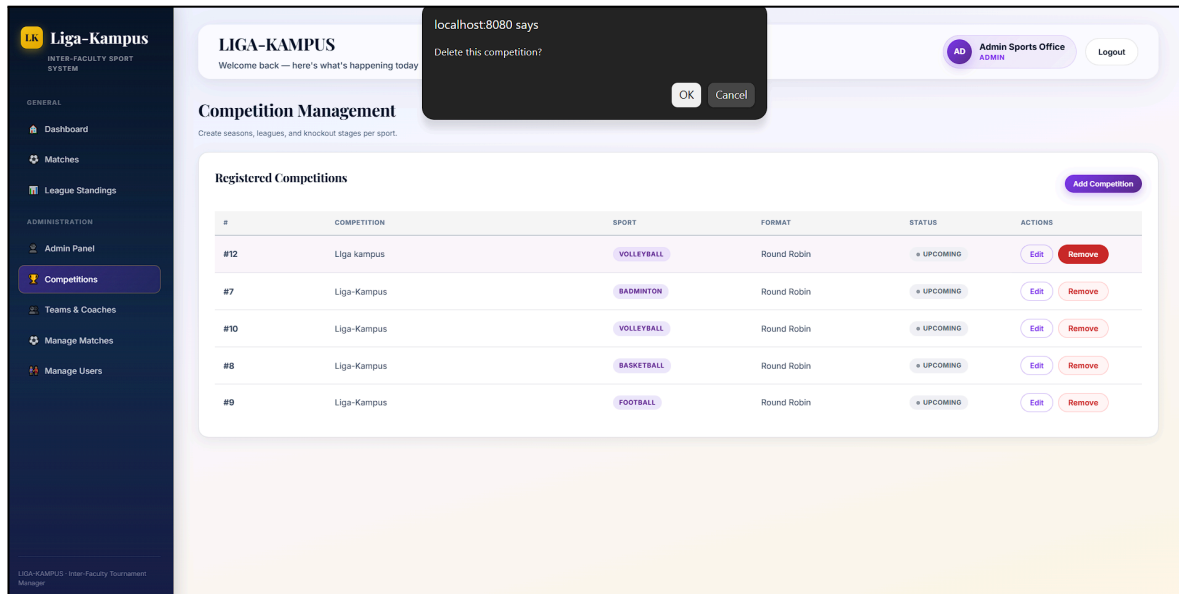

[Figure 5.20: Edit competition status]

Features: Active modification toolsets manipulating global framework variables.

Functionality: Allows admins to adjust standard tournament state progressions safely by transitioning status definitions between Upcoming, Ongoing, and Completed.

Delete Competition

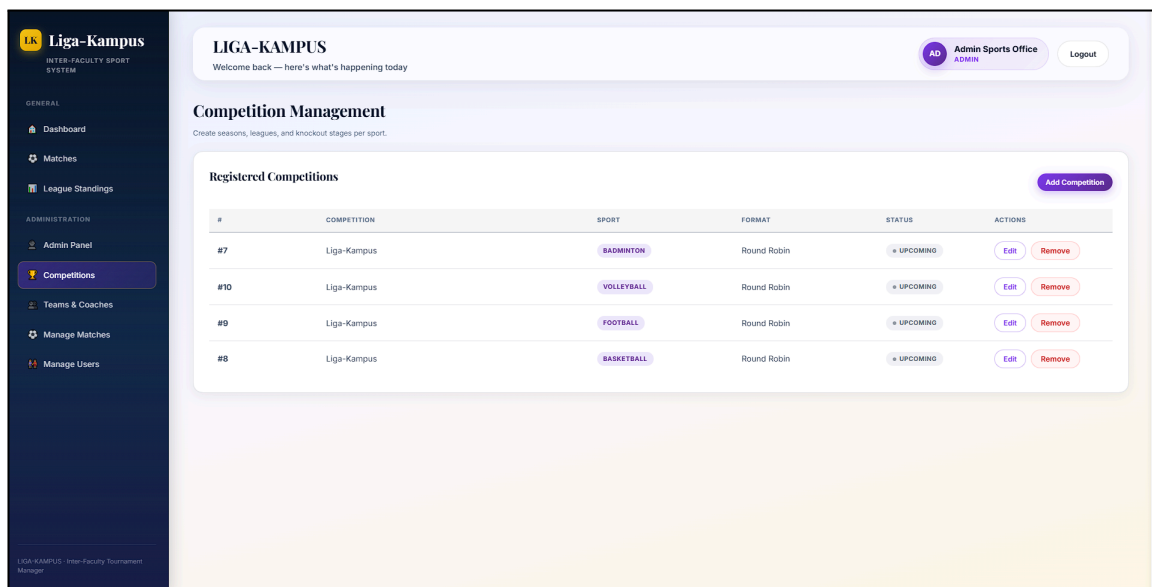

[Figure 5.21: Delete competition confirmation]

Features: System safety wall intercepting unsafe bulk deletion actions.

Functionality: Pauses operational execution blocks by launching a warning window prompt: Delete this competition? demanding definitive input approval.

Team And Coach Page (Coach/Manager)

[Figure 5.22: Competition list after deletion]

Features: Central roster oversight table listing every registered faculty team.

Functionality: Displays each team's assigned sport, faculty, and current Coach/Manager assignment at a glance.

Team and Coach Page

#	TEAM	FACULTY	COACH / MANAGER	SPORT	ACTIONS
9	GILA	FSKM	Anas Arifin	BADMINTON	Edit Delete

COACH / TEAM MANAGER: Anas Arifin

-- Unassigned --

Abid Waie

Anas Arifin

Mohamad Hafiz

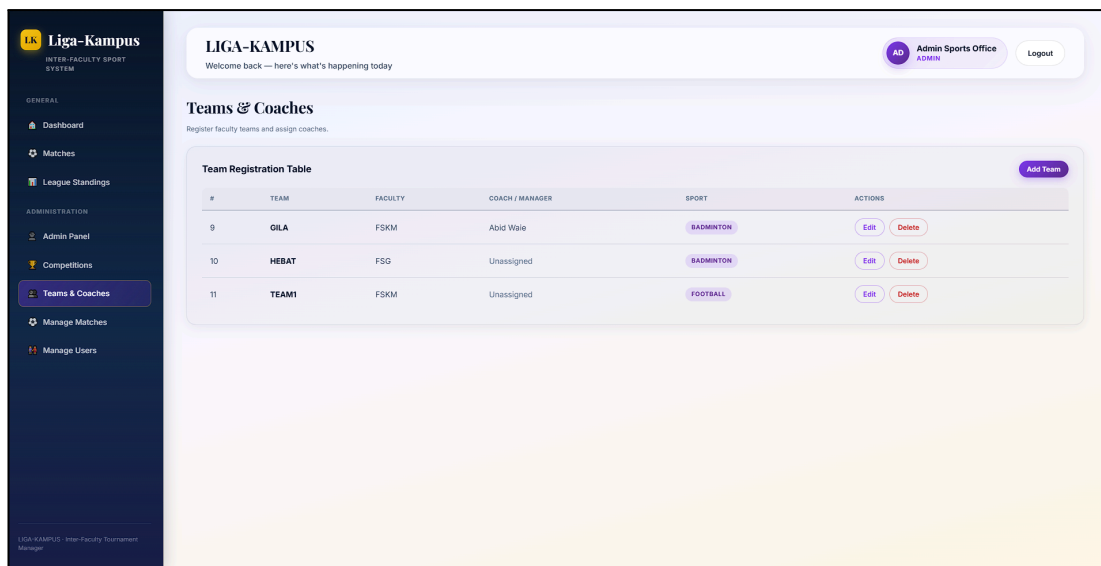

Save Changes

[Figure 5.24: Assign manager dropdown]

Features: "Edit Team Info" configuration overlay.

Functionality: Allows administrators to assign a registered coach to a specific team by selecting their name from a dropdown menu for a chosen tournament (e.g., Liga-Kampus).

Manager/coach Assigned

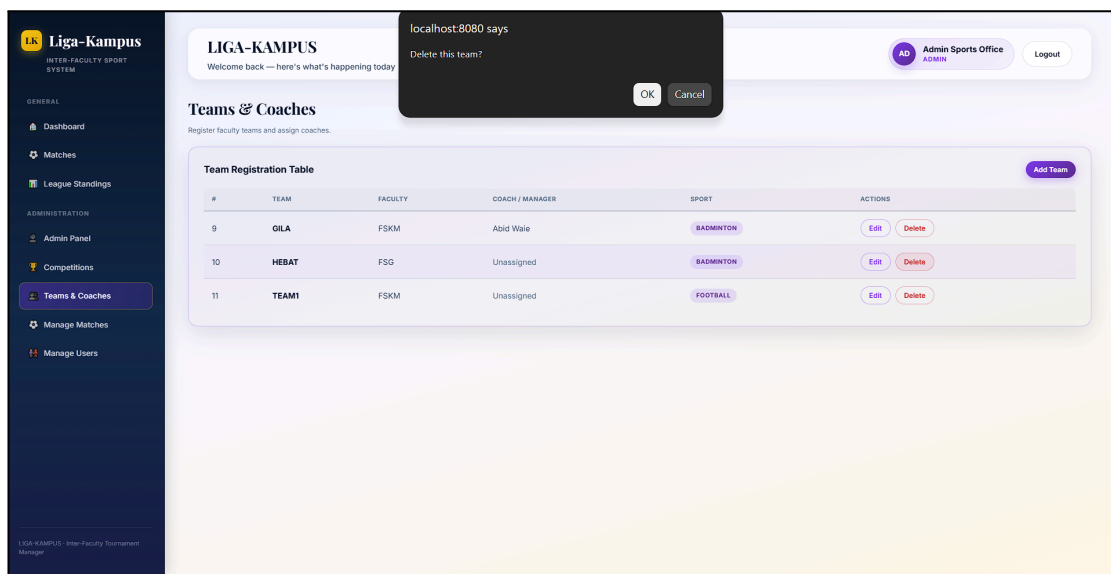

[Figure 5.25: Coach assigned confirmation]

Features: Live view confirming the successful link between a team and its manager account.

Functionality: Updates the team table to display the assigned coach's full name, pulled directly from the linked user account.

Delete Team

[Figure 5.26: Delete team confirmation]

Features: Safety check intercepting an unsafe deletion.

Functionality: Pauses the delete action and requires confirmation via a "Delete this team?" prompt.

Manage Matches Page

ID	TEAMS	SPORT / COMPETITION	VENUE & DATE	SCORE	STATUS	ACTIONS
#6	GILA vs HEBAT	BADMINTON Liga-Kampus	Stadium Tertutup UTM 2026-07-18	12 - 10	COMPLETED	Edit Remove

[Figure 5.27: Match Center scheduling table]

Features: The scheduling tool for match pairings and calendar setups.

Functionality: Lists every scheduled match with its Home/Away teams, venue, date, and current status.

Add Match

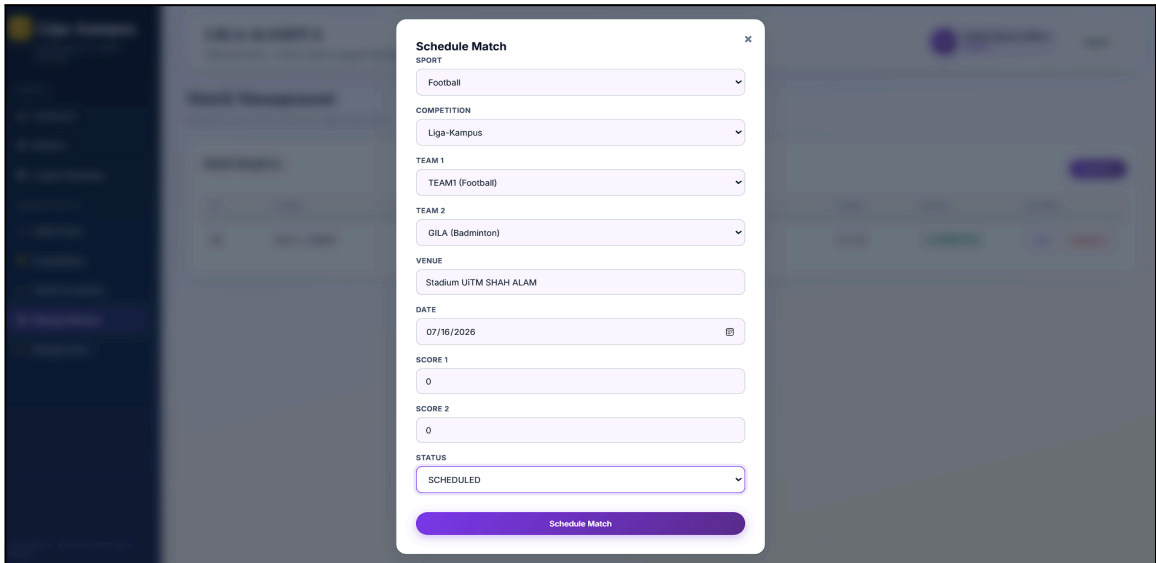

ID	TEAMS	SPORT / COMPETITION	VENUE & DATE	SCORE	STATUS	ACTIONS
#7	TEAM1 vs GILA	FOOTBALL Liga-Kampus	Stadium UTM SHAH ALAM 2026-07-18	0 - 0	SCHEDULED	Edit Remove
#6	GILA vs HEBAT	BADMINTON Liga-Kampus	Stadium Tertutup UTM 2026-07-18	12 - 10	COMPLETED	Edit Remove

[Figure 5.28: Add Match form]

Features: Match Fixture creation form used during tournament setup.

Functionality: Captures the Home/Away Team pairing, scheduled Venue, match Date, and starting scoreboard values.

Match Added

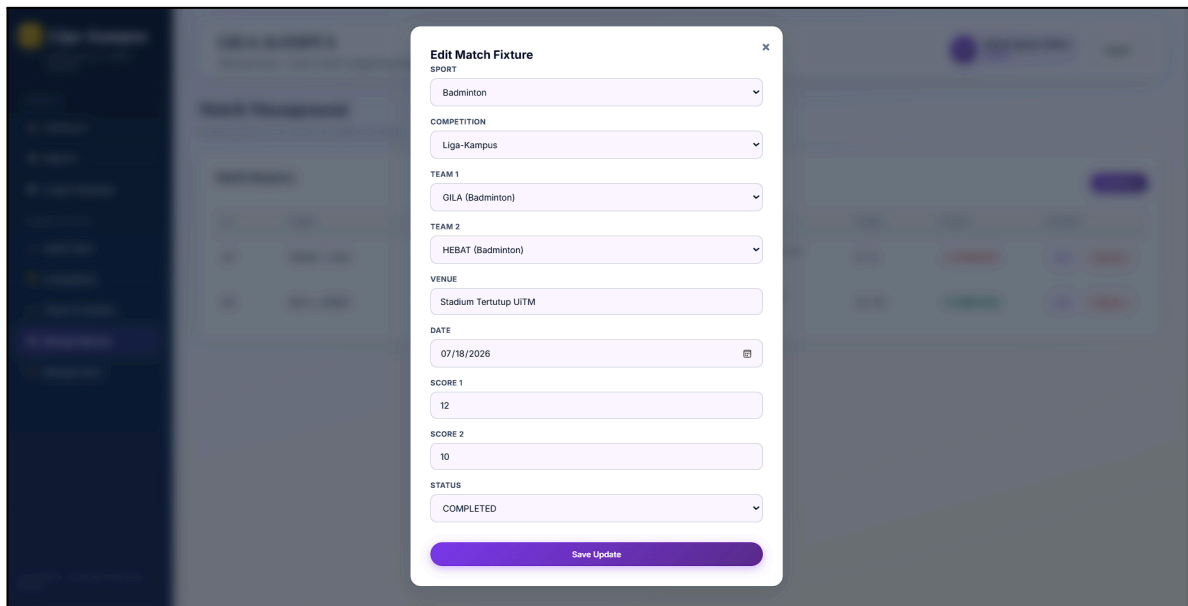

A screenshot of a web application showing a 'Schedule Match' form overlay. The form is titled 'Schedule Match' and has a close button (X) in the top right corner. It contains several input fields: 'SPORT' (Football), 'COMPETITION' (Liga-Kampus), 'TEAM 1' (TEAM1 (Football)), 'TEAM 2' (GILA (Badminton)), 'VENUE' (Stadium UITM SHAH ALAM), 'DATE' (07/16/2026), 'SCORE 1' (0), 'SCORE 2' (0), and 'STATUS' (SCHEDULED). At the bottom of the form is a purple button labeled 'Schedule Match'.

[Figure 5.29: Match added confirmation]

Features: Live view confirming the new fixture was created.

Functionality: Renders the new match into the master table with Edit and Delete controls immediately available.

Edit the Match (Everything)

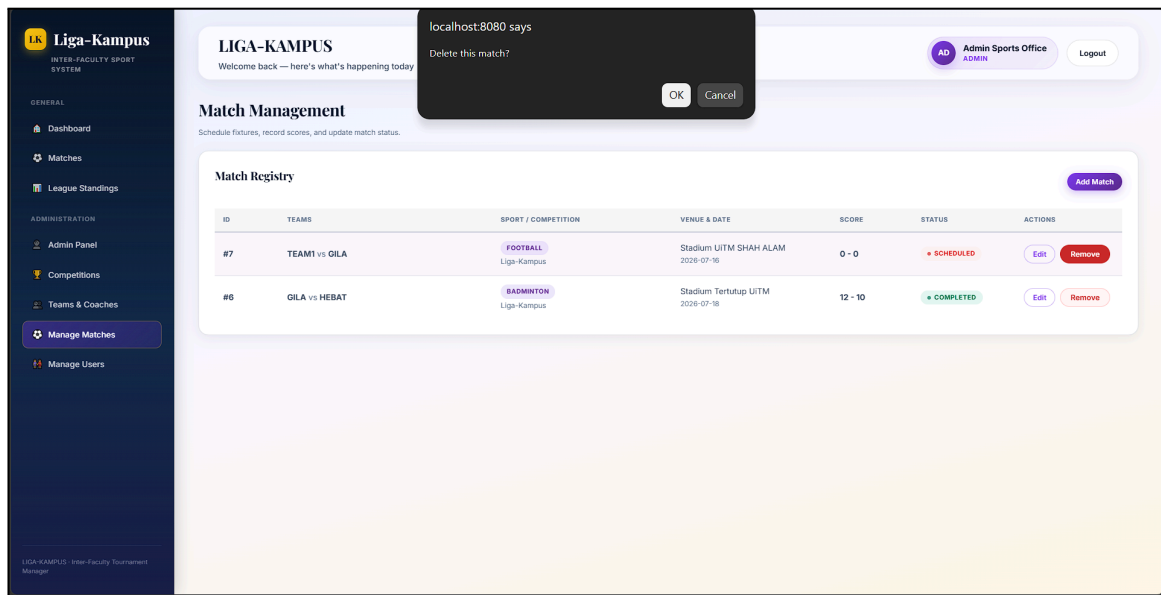

A screenshot of a web application showing an 'Edit Match Fixture' form overlay. The form is titled 'Edit Match Fixture' and has a close button (X) in the top right corner. It contains several input fields: 'SPORT' (Badminton), 'COMPETITION' (Liga-Kampus), 'TEAM 1' (GILA (Badminton)), 'TEAM 2' (HEBAT (Badminton)), 'VENUE' (Stadium Tertutup UITM), 'DATE' (07/16/2026), 'SCORE 1' (12), 'SCORE 2' (10), and 'STATUS' (COMPLETED). At the bottom of the form is a purple button labeled 'Save Update'.

[Figure 5.30: Edit match panel]

Features: "Edit Match Info" modification form overlay.

Functionality: Allows administrators to update specific match details, including modifying scores, changing the match status (e.g., Live, Completed), or adjusting scheduled venues and dates.

Delete the Match

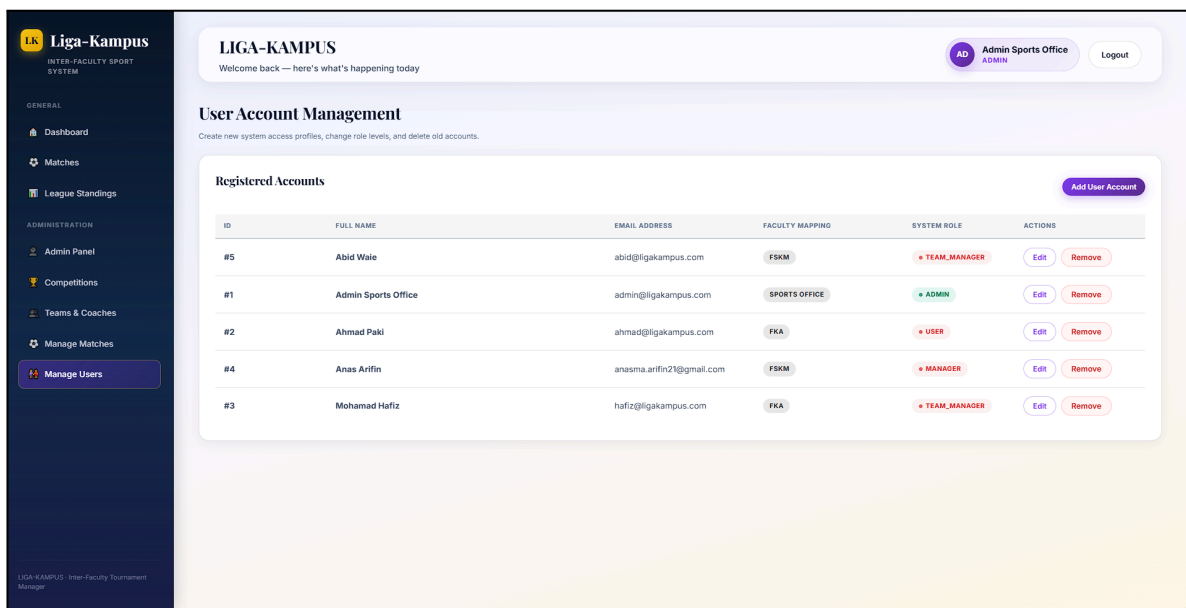

[Figure 5.31: Delete match confirmation]

Features: Browser confirmation dialog preventing accidental deletions.

Functionality: Pauses the delete action and requires confirmation via a "Delete this match?" prompt.

Manage User Page

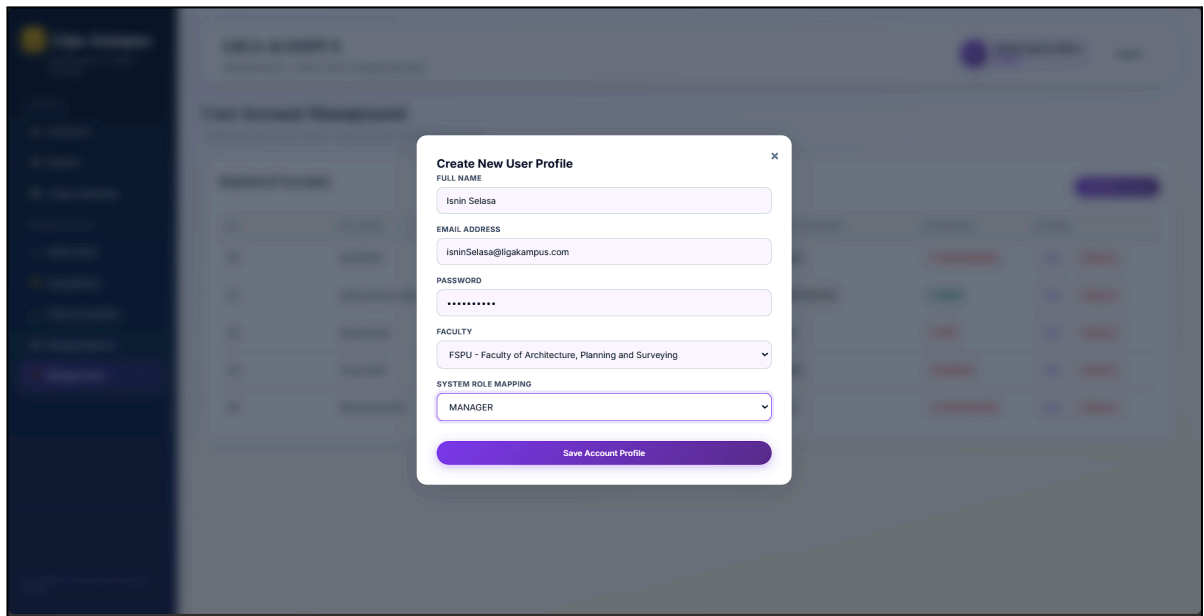

[Figure 5.32: User accounts table]

Features: The system account access auditing directory dashboard.

Functionality: Displays user profiles with information fields tracking registered full names, active login emails, assigned faculty groups, and systemic role classifications.

Add New User

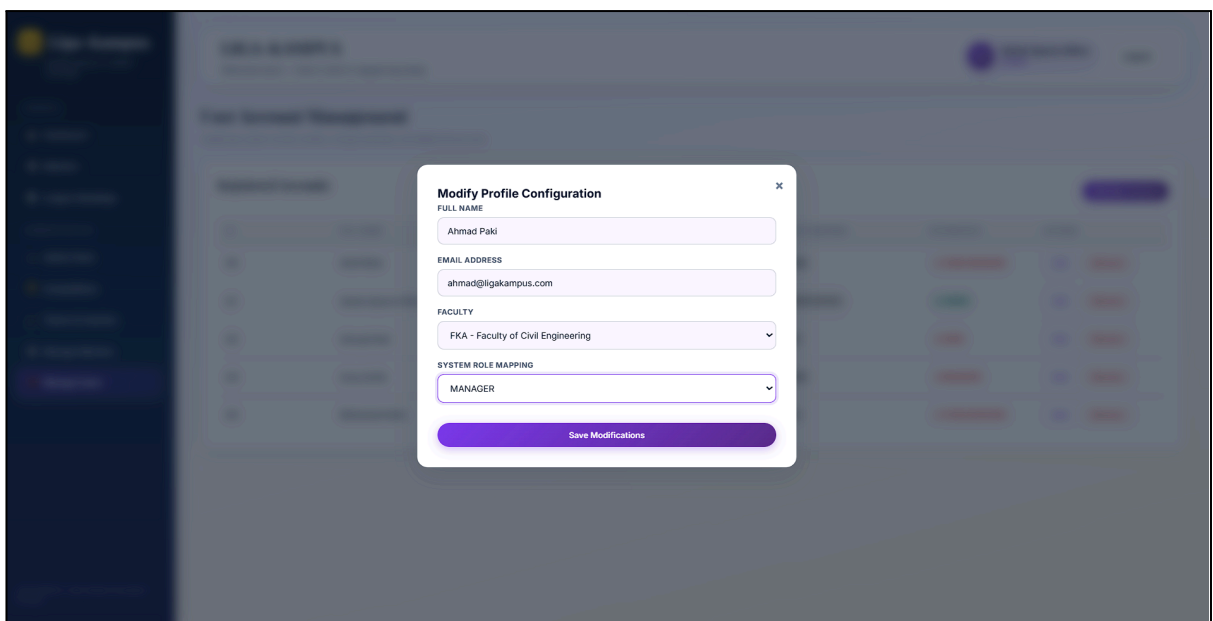

A screenshot of a web application showing a 'Create New User Profile' modal form. The form is white with a purple border and a close button (X) in the top right corner. It contains the following fields: 'FULL NAME' with the value 'Isnin Selasa', 'EMAIL ADDRESS' with the value 'IsninSelasa@ligakampus.com', 'PASSWORD' with a masked value '*****', 'FACULTY' with a dropdown menu showing 'FSPU - Faculty of Architecture, Planning and Surveying', and 'SYSTEM ROLE MAPPING' with a dropdown menu showing 'MANAGER'. A purple 'Save Account Profile' button is at the bottom.

[Figure 5.33: Add User form]

Features: Manual account provisioning form for staff.

Functionality: Provisions specialized credentials by assigning explicit tracking variables: Full Name, Email Address, core Faculty, and structural System Role Mapping.

Edit User Information (Can Assign as Manager)

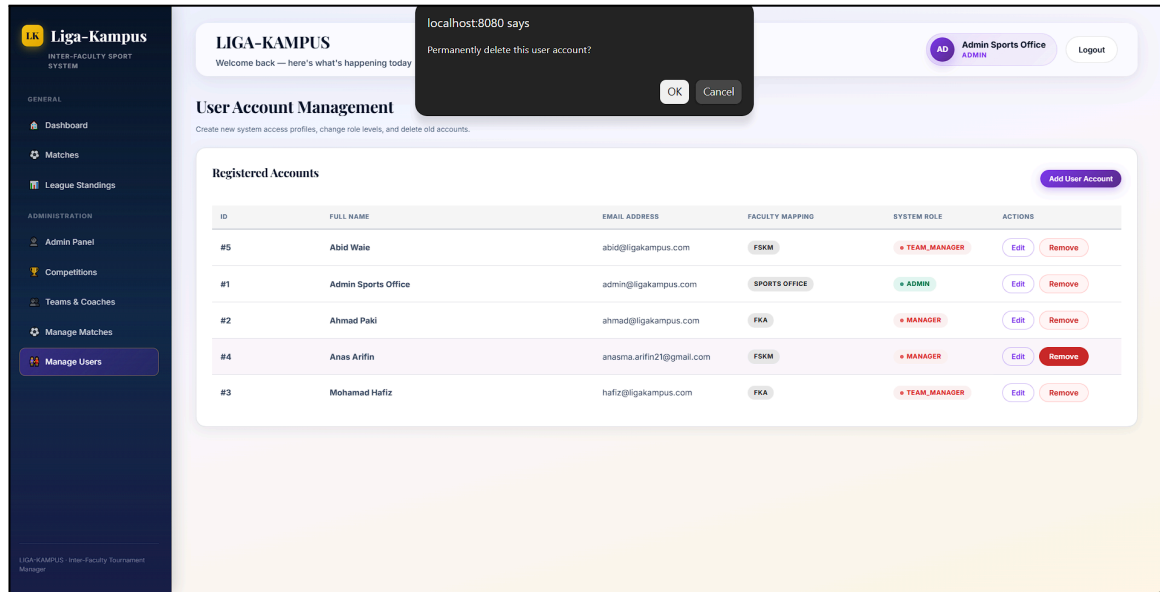

A screenshot of a web application showing a 'Modify Profile Configuration' modal form. The form is white with a purple border and a close button (X) in the top right corner. It contains the following fields: 'FULL NAME' with the value 'Ahmad Paki', 'EMAIL ADDRESS' with the value 'ahmad@ligakampus.com', 'FACULTY' with a dropdown menu showing 'FKA - Faculty of Civil Engineering', and 'SYSTEM ROLE MAPPING' with a dropdown menu showing 'MANAGER'. A purple 'Save Modifications' button is at the bottom.

[Figure 5.34: Edit user form]

Features: Account editing control allowing role reassignment.

Functionality: Confirms account modifications, including reassigning a user's role (e.g. promoting a user to Manager), keeping access tables synchronized.

Delete User

[Figure 5.35: Delete user confirmation]

Features: System-level validation warning safeguarding core profile identities.

Functionality: Blocks accidental removals by prompting a final confirmation: "Permanently delete this user account?"

6. CONCLUSION

Liga Kampus is an University Multi-Sport System designed to make managing and participating in university sports competitions easier and more efficient. By using Java Web Technology and the MVC architecture, the system is not only reliable but also scalable and user-friendly.

For students, it streamlines the process of finding competitions, registering for sports, tracking match schedules, and monitoring team performance. The intuitive dashboard provides quick access to live matches, league standings, and personal participation history.

For staff and administrators, it simplifies the management of sports competitions, team registrations, match scheduling, and result tracking. The comprehensive reporting tools help monitor student engagement and competition performance.

The system supports multiple football matches with various competition formats such as league, knockout, group stage, and swiss system. Real-time updates ensure that all users have access to the latest information.

With all these tools in place, Liga Kampus helps create a more organized, communicative, and engaged campus sports community, where everyone can stay connected and involved in the university's vibrant athletic life.
